KeySafe Pro Portable, Sturdy metal design with protective rubber & pushbuttons

Overview

The KeySafe Pro Portable provides convenient, managed access to stored keys. It is especially suited for temporary key holding, for padlock applications and for alternative use as keyless padlock. It can be used to allow quick and easy access to homes, offices, businesses or any other asset that requires entry through one or more keys. The code can be changed anytime for added security.

The KeySafe Pro Portable has a durable rubber weather cover to prevent water intrusion and to hide from obvious recognition.

Construction and installation

The KeySafe Pro Portable is made of zinc alloy with a powder-coat finish.

The shackle is made of hardened steel. No tools are needed to install the KeySafe. Simply open the lock box, release the shackle (if released), hang on the doorknob or fence, lock the shackle and replace the lid.

Operation

Slide the 'Clear' switch down to reset the buttons. Push the appropriate combination code. Press down the 'Open' switch and remove the lid. After use of the key, enter the code again, press down the 'Open' button and place the lid back. Release the 'Open' button and the lid will be locked.

Applications

Residential applications: on gates, fences, shelter entry, garage doors, fuel tanks, ….
Business applications: access to construction sites, access to cabinets, property management, remote sites,…

Standard Features

- **Easy-to-use portable key box for temporary key storage or use as padlock**

- **No tools needed for mounting**

- **Change combination as often as needed - 1024 code combinations possible**

- **Holds up to 3 keys**

001314	Pushbutton Replacement Lids for KeySafe Pro - Black - Bulk

Guidelines

We recommend that your KeySafe is fitted in a covert position if at all possible.

When programming your access code, we recommend that you NEVER use a birth year or other obvious combination code. A combination consisting of between 5 and 7 digits is recommended.

Please remember that KeySafe is a convenience product, not a security product.
