Portable Stor-A-Key - Assorted Colors

Overview

The inexpensive, versatile Portable Stor-A-Key has a settable combination lock and an adjustable cable for mounting.

It has an easy one-hand operation. The foam insert can be removed to hold keys, coins and more.

Available in three attractive colors for home, sports, recreation and kids.

Construction and installation

The Portable Stor-A-Key has a weather resistant plastic housing. It has an adjustable cable to hook it almost everywhere (fences, pipes, backpack/bag, car/bike rack and more).

Operation

Set the right code on the combination lock and the lid will open. After closing the lid, set an incorrect code for locking the key case.

To release the cable, press the side button, when the key container is open. Now you can adapt the cable length to your needs. When you close the container, the cable will lock.

Applications

The Portable Stor-A-Key is an attractive key box to prevent loosing your keys. It offers convenient key holding for home, sports and recreational use for the whole family. Its cable makes it easy to connect to all kinds of fences, backpacks/bags, car/bike racks, trailer, boot,...

Guidelines

Portable Stor-A-Key is a convenience product, not a security product. Do not leave the key in the key case unnecessary.

Standard Features

- Inexpensive, versatile
- Weather resistant plastic housing
